

## Day-Date 36

Oyster, 36 mm , Everose gold and diamonds

The Oyster Perpetual Day-Date 36 in 18 ct Everose gold, with a diamond-paved dial, diamond-set bezel and a diamond-set President bracelet.

DIAMOND-PAVED DIAL

## Optimal brilliance

This dial features 10 baguette-cut, rainbowcoloured sapphires. Diamonds, sapphires, rubies, emeralds - the noblest and most precious stones are selected to grace Rolex timepieces. The brand has in-house expertise and equipment enabling it to bejewel any model in its catalogue.

Experienced gemmologists first select gemstones of the highest quality. For this, they can rely on their own seasoned judgement as well as state-of-the-art analysis equipment. The stones are then entrusted to the gem-setters, who skilfully place
each precious stone onto the watch by hand, one by one, assuring precision to within hundredth of a millimetre. Such stringent tolerances guarantee that each stone shines with optimal brilliance and is perfectly aligned with those around it. These time-honoured gestures, which may be repeated many hundreds of times, ensure that each gemset watch produced by Rolex sparkles with exceptional intensity and reflects the standard of excellence required by the brand.

DIAMOND-SET BEZEL

## A sparkling symphony

Gem-setters, like sculptors, finely carve the precious metal to hand-shape the seat in which each gemstone will be perfectly lodged. With the art and craft of a jeweller, the stone is placed and meticulously aligned with the others, then firmly secured in its gold or platinum setting.

Besides the intrinsic quality of the stones, several other criteria contribute to the beauty of Rolex gem-setting: the precise alignment of the height of the gems, their orientation and position, the regularity, strength and proportions of the setting
as well as the intricate finishing of the metalwork. A sparkling symphony to enhance the watch and enchant the wearer.

## An exclusive patent

To preserve the beauty of its pink gold watches, Rolex created and patented an exclusive 18 ct pink gold alloy cast in its own foundry: Everose gold.

Introduced in 2005, 18 ct Everose is used on all Rolex Oyster models in pink gold.

## The ultimate refinement

The design, development and production of Rolex bracelets and clasps, as well as the stringent tests they face, involve advanced high technology.

And, as with all the components of the watch, aesthetic controls by the human eye guarantee impeccable beauty. The President bracelet, with its semi-circular three piece links, was created in 1956 for the launch of the Oyster Perpetual DayDate. It represents the ultimate in refinement and comfort and is always made of carefully selected precious metals.

## More Day-Date technical details

Reference 128345RBR

## Model Case

## Type

Oyster, 36 mm, Everose gold and diamonds

Diameter
36 mm

Material
Everose gold

Bezel
Set with diamonds

## Oyster Architecture

Monobloc middle case, screw-down case back and winding crown

## Winding Crown

Screw-down, Twinlock double waterproofness system

## Crystal

Scratch-resistant sapphire, Cyclops lens over the date

Water Resistance
Waterproof to 100 metres / 330
feet

## Movement

## Type

Perpetual, mechanical, self-winding

Calibre
3255, Manufacture Rolex

## Precision

-2/+2 sec/day, after casing

Oscillator
Paramagnetic blue Parachrom
hairspring. High-performance
Paraflex shock absorbers

Winding
Bidirectional self-winding via
Perpetual rotor

## Power reserve

Approximately 70 hours

## Functions

Centre hour, minute and seconds hands. Instantaneous day and date in apertures, secure rapid-setting. Stop-seconds for exact time setting

## Bracelet

Type<br>Diamond-set President<br>Clasp<br>Concealed folding Crownclasp<br>\section*{Bracelet Material}<br>18 ct Everose gold

## Dial

## Type

Diamond-paved

## Certification

## Type

Superlative Chronometer (COSC +
Rolex certification after casing)
