

Day-Date 40

Oyster, 40 mm, Jubilee Gold

**The Oyster Perpetual
Day-Date 40 in 18 ct
Jubilee Gold with a
gold-leaf design dial,
fluted bezel and a
President bracelet.**

GOLD-LEAF DESIGN DIAL

The glow of prestige

The dial of this exceptional timepiece is created from 18 ct Jubilee gold, glowing with tones of tender yellow, warm grey and soft pink.

Adorned with a gold-leaf design evoking gilded decoration, it features faceted, deconstructed Roman numerals and faceted index hourmarkers, which, like the hands, are also made of 18 ct Jubilee Gold.

FLUTED BEZEL

A Rolex signature

The Rolex fluted bezel is a mark of distinction. Originally, the fluting of the Oyster bezel had a functional purpose: it served to screw the bezel onto the case helping to ensure the waterproofness of the watch.

It was therefore identical to the fluting on the case back, which was also screwed onto the case for waterproofness, using specific Rolex tools. Over time, the fluting became an aesthetic element, a genuine Rolex signature feature. Today the fluted

bezel is a mark of distinction, in gold on this Day-
Date 40.

JUBILEE GOLD

A gentle shine

This metal with a sophisticated hue and subtle reflections was unveiled on this exclusive version of the Oyster Perpetual Day-Date 40.

The 18 ct gold alloy was conceived, developed and produced in the brand's workshops and named Jubilee Gold. It glows with tones of tender yellow, warm grey and soft pink.

THE PRESIDENT BRACELET

The ultimate refinement

The design, development and production of Rolex bracelets and clasps, as well as the stringent tests they face, involve advanced high technology.

And, as with all the components of the watch, aesthetic controls by the human eye guarantee impeccable beauty. The President bracelet, with its semi-circular three piece links, was created in 1956 for the launch of the Oyster Perpetual Day-Date. It represents the ultimate in refinement and comfort and is always made of carefully selected precious metals.
